NOTE:

This Memorandum of Understanding (MoU) shall be executed on **Rs. 100 Franklin** and shall be legally binding on all the parties involved..

MEMORANDUM OF UNDERSTANDING (MoU)

Between

[Name of the Engineering College]

and

HackBoats

1. Title

Memorandum of Understanding for Establishment and Operation of a Center of Excellence (CoE) in Robotics & Artificial Intelligence

2. Parties to the MoU

This Memorandum of Understanding ("MoU") is entered into on this (**date)** , at (**College addresss)**

between:

Party 1:
[Name of the Engineering College],
located at **[College Address]**,
represented by **[Principal/Director Name & Designation]**,
hereinafter referred to as **"the Institution"**.

AND

Party 2:
HackBoats,
a product-based and innovation-driven company specializing in Robotics, Artificial Intelligence, IoT, Drones, and Emerging Technologies,
represented by **Mr. Mahan RK, CEO – HackBoats**,
hereinafter referred to as **"HackBoats"**.

The Institution and HackBoats shall hereinafter be collectively referred to as **"the Parties"**.

3. Purpose of the MoU

The purpose of this MoU is to establish and operate a **Center of Excellence (CoE) in Robotics & Artificial Intelligence** at the Institution, sponsored and supported by HackBoats, with the objective of:

- Promoting innovation, research, and product-based learning
- Enhancing students' industry readiness
- Supporting institutional goals related to **NIRF, NBA, NAAC, and innovation ecosystem development**

- Encouraging startups, patents, prototypes, and real-world problem-solving

4. Scope of Collaboration

The Center of Excellence shall focus on:

- Robotics & Intelligent Systems
- Artificial Intelligence & Machine Learning
- Automation and Smart Systems
- Product Development & Prototyping
- Research & Innovation Projects
- Student-led innovation, hackathons, and challenges

5. Responsibilities of HackBoats

HackBoats shall undertake the following responsibilities for the successful establishment and operation of the Center of Excellence:

1. **Strategic Design of the CoE**
    - Define the vision, mission, and long-term roadmap of the Center of Excellence in Robotics & Artificial Intelligence.
    - Align the CoE objectives with industry trends, emerging technologies, and institutional academic goals.
2. **Industry Expertise & Mentorship**
    - Provide domain experts and industry mentors to guide students and faculty.
    - Support students in understanding real-world industry problems, solution design, and implementation approaches.
3. **Innovation & Research Support**
    - Facilitate applied research, innovation projects, and proof-of-concept development.
    - Encourage product-oriented thinking, prototype development, and solution validation.
4. **Programs & Activities**
    - Conduct hackathons, innovation challenges, bootcamps, ideation workshops, and technology awareness sessions.
    - Organize expert talks, industry interaction sessions, and innovation review meets.
5. **Student & Startup Enablement**
    - Mentor student teams for startup ideas, innovation challenges, and entrepreneurship initiatives.
    - Guide students on patents, publications, and product commercialization wherever applicable

6. **Consultancy & Applied Projects**
    - Support consultancy, research, and development projects undertaken through the CoE.
    - Assist in documentation and structuring of consultancy and innovation projects as per institutional requirements.
7. **Accreditation & Ranking Support**
    - Assist the Institution in strengthening innovation, research, and industry collaboration metrics relevant to **NIRF, NAAC, and NBA**.
    - Provide necessary inputs, activity reports, and impact documentation related to CoE initiatives.

6. Responsibilities of the Institution

The Institution shall support the Center of Excellence through the following commitments:

1. **Infrastructure & Facilities**
    - Provide a dedicated physical space within the campus for the Center of Excellence.
    - Ensure uninterrupted access to basic infrastructure such as power, internet, and academic facilities.
2. **Academic & Administrative Support**
    - Appoint a qualified **Faculty Coordinator / CoE In-Charge** to oversee coordination and execution.
    - Facilitate internal approvals, scheduling, and academic integration of CoE activities.
3. **Student Participation & Engagement**
    - Encourage active participation of students across departments.
    - Integrate CoE activities with academic projects, innovation clubs, and research initiatives.
4. **Faculty Involvement**
    - Nominate faculty members to collaborate with HackBoats for mentoring, research, and innovation activities.
    - Promote interdisciplinary collaboration through the CoE.
5. **Promotion & Visibility**
    - Promote CoE activities through institutional channels such as website, social media, events, and reports.
    - Acknowledge HackBoats as the industry sponsor and knowledge partner.
6. **Data & Documentation**
    - Maintain records of student participation, outcomes, projects, and innovations developed through the CoE.

- Share relevant data required for impact assessment, accreditation, and reporting purposes.

7. **Logistical and Hospitality Support**
    - The Institution (Party 1) shall provide suitable accommodation, boarding, and necessary hospitality arrangements for mentors and authorized representatives nominated by HackBoats (Party 2) for activities under this MoU. All such arrangements shall be made at the Institution's cost and in a timely manner to ensure the smooth conduct of CoE programs.

7. Governance & Coordination

1. **Joint Coordination Committee**
    - A committee comprising representatives from HackBoats and the Institution shall be formed.
    - The committee shall oversee planning, execution, monitoring, and review of CoE activities.
2. **Review & Monitoring**
    - Periodic review meetings shall be conducted to evaluate progress, outcomes, and challenges.
    - Necessary improvements or changes shall be implemented based on mutual discussions.
3. **Operational Planning**
    - Annual or semester-wise activity plans shall be mutually agreed upon.
    - All activities shall be executed as per defined timelines and objectives.

8. Intellectual Property Rights (IPR)

1. **Ownership**
    - Intellectual Property generated through joint projects shall be governed by institutional policies and mutual agreement.
    - Student creators shall retain appropriate ownership as per institutional norms.
2. **Usage Rights**
    - HackBoats may use non-confidential outcomes for academic, research, and promotional purposes.
    - Commercialization, if any, shall be decided through separate written agreements.
3. **Confidentiality of Innovations**
    - All unpublished or sensitive innovations shall be treated as confidential unless agreed otherwise.

9. Branding & Visibility

1. **Naming Rights**
   - The Center shall be titled:
     "Center of Excellence in Robotics & Artificial Intelligence – Powered by HackBoats".
2. **Brand Usage**
   - Logos, banners, and references of both Parties may be used only for academic, innovation, and promotional purposes with mutual consent.
3. **Public Representation**
   - Any media releases, publications, or public communications shall be coordinated and approved by both Parties.

10. Financial Understanding

1. **Financial Nature**

   This MoU implies a mandatory financial commitment, under which each participating **student shall pay Rs. 500 per sem**. Party 1 shall be responsible for ensuring the participation of a total **minimum of 600 students per year**, comprising 200 students each from the First Year, Second Year, and Third Year of engineering, across all branches, and for collecting and providing Rs. 500 per student per semester to Party 2 as part of the implementation of this MoU.
2. **Future Engagements**
   - Any funded projects, consultancy work, or commercial activities shall be governed by separate agreements.
3. **Cost Sharing (If Applicable)**
   - Specific costs, if any, shall be mutually discussed and documented in writing.

11. Confidentiality

- Both Parties agree to protect confidential information shared during the collaboration.
- Confidentiality obligations shall remain valid even after termination of the MoU.

12. Duration, Amendment & Termination

1. **Duration**
   - The MoU shall remain valid for **three (3) years** from the date of signing.
2. **Amendments**
   - Any modification shall be made through mutual written consent.
3. **Termination**

   Either Party may terminate this MoU by providing **30 (thirty) days' prior written notice** to the other Party, without causing disruption to any ongoing academic or training activities.

In the event of termination, the ownership and withdrawal of components and infrastructure provided under this MoU shall be governed as follows:

a) **If the MoU is terminated after completion of 1 (one) year**, all components, equipment, and infrastructure provided shall be taken back by the providing Party.

b) **If the MoU is terminated after completion of 2 (two) years**, **50% of the components, equipment, and infrastructure** shall be taken back by the providing Party, and the remaining 50% shall remain with the institution.

c) **If the MoU is terminated after completion of 3 (three) years or more**, all components, equipment, and infrastructure provided under this MoU shall remain permanently with the institution.

13. Legal & Jurisdiction

- This MoU represents a collaborative intent and does not constitute a legal partnership.
- The MoU shall be governed by the laws of India.

14. Signatures

IN WITNESS WHEREOF, the Parties hereto have signed this Memorandum of Understanding on the date mentioned above.
